XSELLENCE BANGLADESH LTD.

For nearly a decade, we have been transforming businesses across Bangladesh through innovative software solutions. As the country's fastest-growing Odoo Gold Partner, we have built a strong reputation for delivering reliable and powerful business software that simply works.

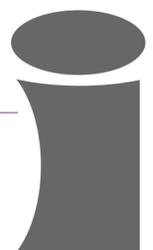

Our team of 20+ tech experts brings together deep knowledge of both custom software development and Odoo solutions. We are particularly well-known for creating the best school management systems in Bangladesh, helping educational institutions run more smoothly. From small local shops to large companies, we build tools that help businesses work better - whether it's managing customer relationships, handling accounting, or streamlining manufacturing processes.

What makes us special is our practical approach and focus on getting things done right. With ten years of hands-on experience with Odoo and custom software development, we understand what businesses really need. Our technical team is recognized as one of the best in Bangladesh, known for turning complex business challenges into simple, effective solutions. Whether a business needs a simple website or a complete digital transformation, we know how to make it happen. Our track record of successful projects and happy clients across Bangladesh has made us a trusted name in the software industry.

WHO WE ARE ?

Businesses are mainly categorized on the basis of their scale of operations, organizational structure or market segment but for us every business is the same. We understand that managing even more than a handful of employees can be taxing as there are a lot of other things to manage apart from manpower. This mainly includes pricing, product planning, accounting and finance, managing payroll, dealing with inventory, and much more. On the top of that, you need to have a strong presence on the World Wide Web too. We are here to take all your business worries away. Our smart software solutions and digital marketing expertise can leverage you to reach the next level of business

WHAT WE BELIEVE– OUR MOTTO

“We work for Excellence”

We believe in work that makes a difference. Our motto defines us and our way of working. We want to give our best service to each and every client. We are confident of our products and the goal is to serve the quality product in market to eradicate the obstacles business’ and Educational Institutes fails to overcome without any business solutions or using the low-quality solutions.

VISION

We are operating in Bangladesh since 2015. Our vision is to push our limits to break the barrier to best ourselves, acquire the best and latest technology to produce more and far better ahead of time products to serve our clients and be the best and respected IT company in the world.

Excellence

OUR EXPERIENCE

We started operating as a private limited company in 2015. From the beginning and first client we were very passionate and serious about every client and their work. We served a great deal to our clients and successful in every aspect they are still our loyal customer. Over the years our resources, employees, and clients increased as a result of successful project delivery and maintenance, continuous talent nurturing and implementation of concurrent technologies to keep our clients ahead of time and competitions. We are contributing to economic development and employment to our country. Today we are an organization with balanced infrastructure and office environment to operate successfully. We are dealing with more clients as we are progressing. We are much respected because of our honesty, quality of work, support and services we provide to our clients. We have many ongoing projects shows the strong operating position of Xsellence Bangladesh limited. Our current key clients' are- Robi Axiata Ltd. Mudi (Sister Concern of City Group), JK Lifestyle, Ultima Bangladesh, Bashundhara Group, Crocodile Bangladesh and many more.

Gold Partner

Xsellence Bangladesh Limited

OUR BUSINESS ETHICS

In this world of business modernization there are many provider and companies who serves their client with ERP software. But they hardly fulfill their customer's needs. Rather they give their clients very tough times. Our ethics lead us to do good business. Our prime goal is to grow along with our clients. We do not believe in bad business. We want to operate honestly and want serve the market with a better quality of product. We want our customer and clients to be the most satisfied customers of all!!

OUR STRENGTH

Xsellence Bangladesh limited is a family of very hard working people. We work as a team and push the limits to achieve greater goals.

Some of our true strengths are listed below:-

1. Best Quality product
2. Latest Technology
3. Hard work
4. Honesty
5. Passioned Team Work
6. Best customer support

There are many things that drives us to work efficiently and provide the best customer satisfaction.

Xsellence Bangladesh Limited

Our Experties:-

Xsellence expertise in different industries and technologies which helps businesses to scale their infrastructure on the go.

ERP Solutions:

Xsellence provides fully Customized business management software tools including, for example, accounting, production management, LC management, fleet management, CRM, e-commerce, billing, manufacturing, warehouse, project management, inventory management, and others for any type of business.

Garments Management:

Xsellence Bangladesh Ltd. offers Garments Management Software with ERP that optimizes production, inventory, HR, and compliance processes. Our solution ensures seamless operations from order to delivery for the apparel industry.

Manufacturing Management:

Xsellence Bangladesh Ltd. provides Manufacturing Management Software with ERP to streamline production, planning, inventory, and quality control in one integrated system.

Hospital Management:

Xsellence Bangladesh Ltd. offers Hospital Management Software with ERP integrates healthcare operations with enterprise resource planning, streamlining patient care, inventory, billing, and administrative processes in one unified system.

Lead Management/CRM:

We power business growth with comprehensive CRM solution, featuring smart lead tracking, automated follow-ups, and real-time pipeline visibility in one unified platform. Our customized implementation helps businesses manage leads effectively with intelligent scoring, integrated communication channels, and powerful analytics - enabling sales teams to close deals faster and drive better results.

Kubernetes & Docker Swarm:

We specialize in managing Kubernetes and Docker Swarm to streamline deployment, scaling, and orchestration of containerized applications. Our expertise ensures efficient workload management, high availability, and seamless scaling for various environments.

HRM:

With our HRM Software you can gather all information concerning each employee at one place. Keep track of your employees' status, job titles, contract type and dates, their schedule and keep track of your employees' presence at work. Managing Leaves, Payroll and Timesheet Smartly.

E- Commerce:

eCommerce has grown by leaps and bounds over the previous years and has become one of the prime fundamentals of any modern business pipeline. With our integrated ERP your eCommerce will be 100% hassle free.

Educational Institute management:

Our Solution for any educational institution is very technologically advanced. Our features and functionality enabled institutions to reduce their effort, automate their process and make cost effective operation. Our solution makes the whole complex procedure very easy.

Accounting and Reports:

We provide world leading Accounting software and consultancy for your business needs.

Point of Sale:

POS App or Systems streamlines the entire retail business process. It helps to easily store and manage the inventory, orders, customers, sales information.

Cloud Setup:

Cloud computing is based on the set of unified clusters of the servers which are integrated together to deliver an optimized and lightning fast experience to the users.

Custom Development:

Custom Development is all about bringing the developers and operations team together. It helps to collaborate different team in more efficient and time-saving to always stay agile.

Internet of Things (IOT):

Internet of Things unifies the smart devices so that they can exchange data from one another; to deliver a more connected and automated personalized experience.

Mobile Apps:

Mobile devices are flexible in nature and encourage the users to stay hooked for a longer time. Mobile apps help to outreach to the customers with its significant features.

Tracking:

Xsellence provides a powerful easy-to-use tracking platform designed and developed by our professional tech experts. Our focus is to provide a user-friendly platform available in the market at the most reasonable pricing.

Search Engine Optimization:

Our Search Engine Optimization(SEO) service can help increasing your search result so that your site can top of all major search engines such as Google, yahoo, Bing

- Supply chain management

We already achieved the experience serving these industries. We are very much interested to take challenge of serving any other industries in the market as well.

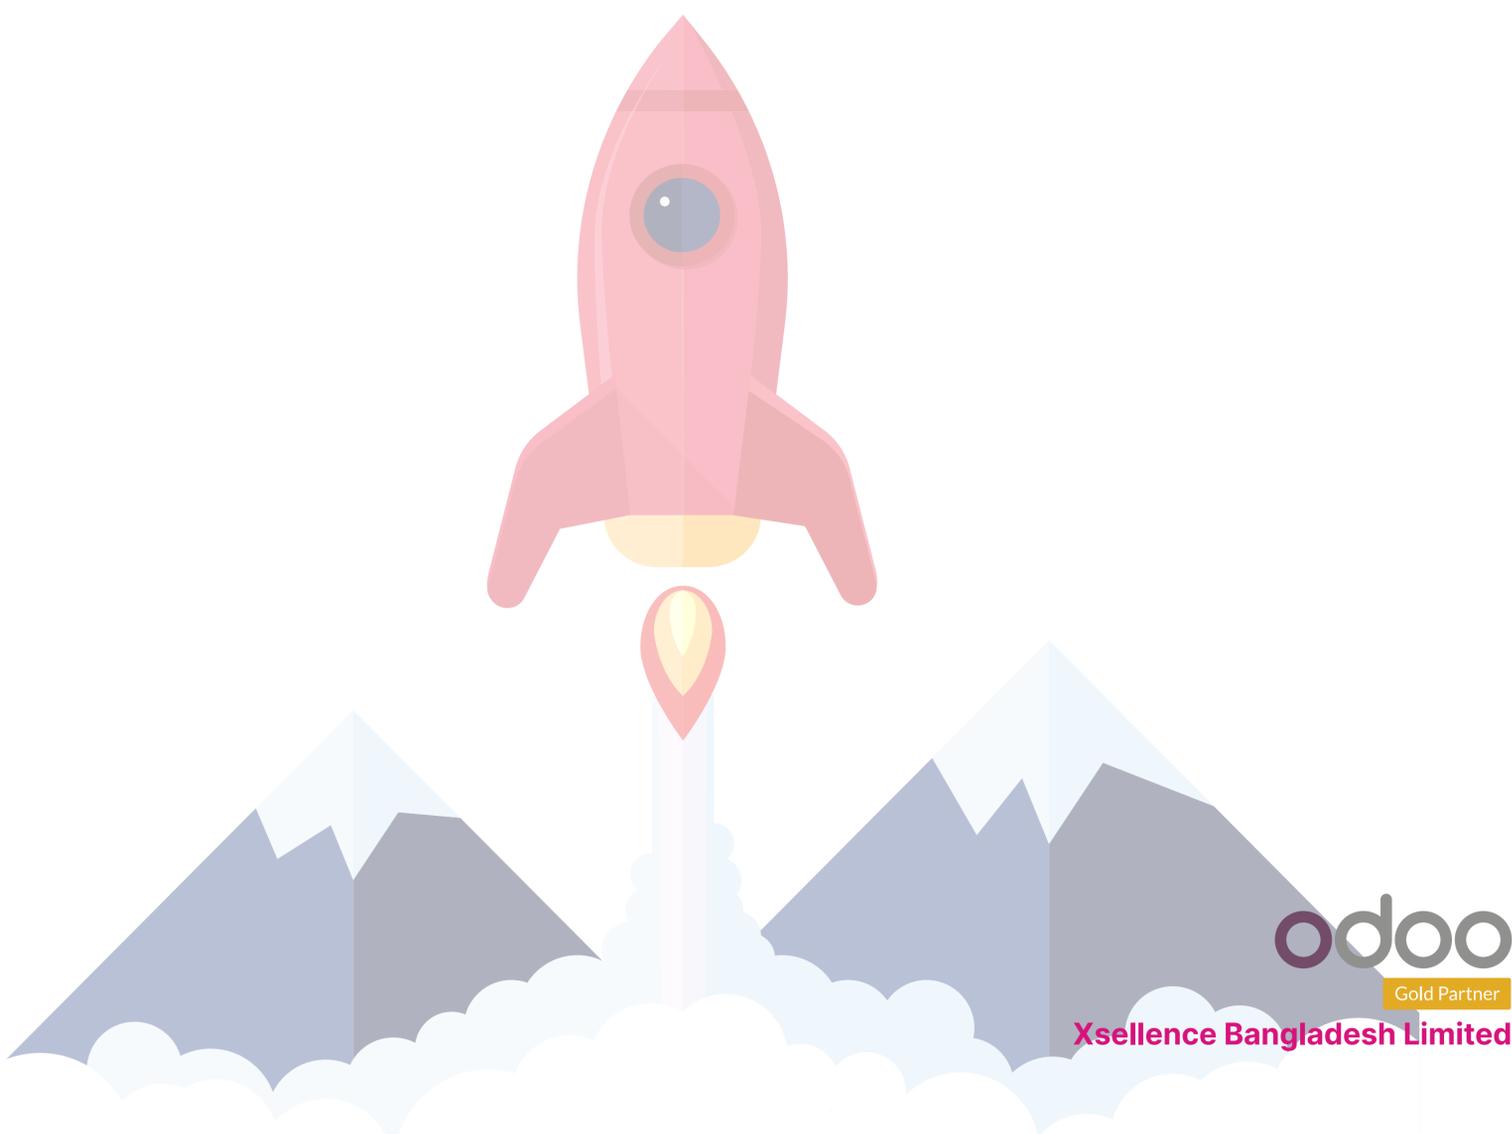

METHODOLOGY

Failing deadline, not understanding the requirement, communication gap, unskilled workforce is the main points that makes every other organization unsuccessful. We work in a way that eradicates the problems and gives us the advantage to understand the clients need and deliver a sound product. To follow our vision, goal we work efficiently and effectively. We follow Agile software methodologies where every day we produce output instead of planning for long time without output. To fulfil highly sensitive end users demand and rapid growth of Application Eco-System. Below key area to be considered:

- Understand & analyzing the customer need.
- Gathering requirements for the proposed business solution.
- World standard UI/UX for the app.
- Implementation (coding) of the application.
- Testing the application, Maintenance and bug fixing & finally publishing
- Ensures full data consistency and data integrity during the execution of the migration projects from production to non-production system.
- Post Live Support.

TECHNOLOGY WE USE

WHY XSELLENCE BANGLADESH LIMITED ?

BEST PRODUCT

We are very confident that we have one of the best ERP product in the world. The user friendly interface, all in one solution, automated accounting and everything is linked with one another. Our clients who already used other products in the past can tell the difference. Our client is way happier than others.

ACCURATE/FLAWLESS ACCOUNTING AND OPERATION

Our product gives you accurate accounting outcomes. Many other products in the market are cheap in price but they do not give expected results to business. As a result, it gets messier and very hard to maintain business documentations. Our product is flawless and we are continuously working on to make it better.

AFFORDABLE PRICE

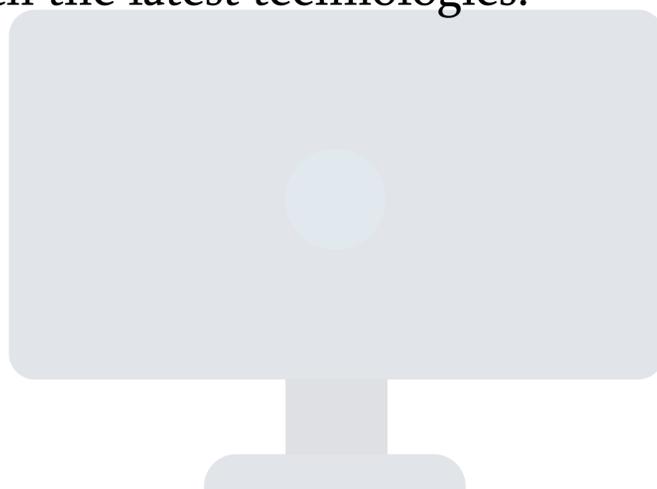

We provide our services in a very affordable price range. The quality of product and impact of the product in your business is very profitable.

SKILL AND EXPERTISE

Our workforce is very dynamic, skilled, experienced and passionate. Any work is completed with great deal of sincerity, integrity and quality.

TECHNICAL ADVANTAGE

Our workstation is up to date and we have advanced level of hardware and software to deal with heavy load of work. We have extra resources to complete work from home also. We are continuously taking care of the resources we have and trying to keep up with the latest technologies.

Xsellence Bangladesh Limited

TIME MANAGEMENT

Our team plans and works in a very effective way, which enables us to deliver the product before the stated time.

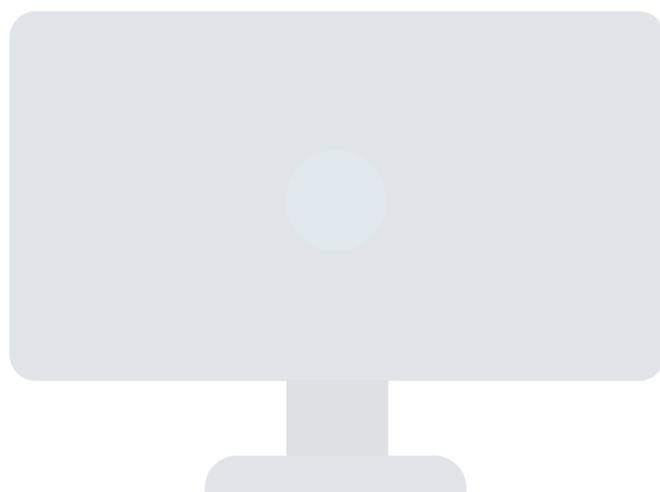

CUSTOMER SUPPORT

Our customer support team is very active and works hard for our client whenever necessary. They ensure that we do not miss clients query or any other question and always ready to solve client's problem anytime.

DEDICATED PROJECT TEAM

We create dedicated team for our clients. Each team member solely works on the projects for respective clients. The team is directly managed and supervised by our clients. We offer direct communications between our team members and client to ensure comfort and avoid miscommunication.

We are the trusted advisor who came into their inner circle and understand and find out what they care about deeply,
Their business and their long time goal
